Magnet Programs

Global Studies Magnet

The Global Studies Magnet is a program that focuses on the connection between the environment, culture, politics, and economics with an emphasis on animal conservation.

Performing Arts Music Band

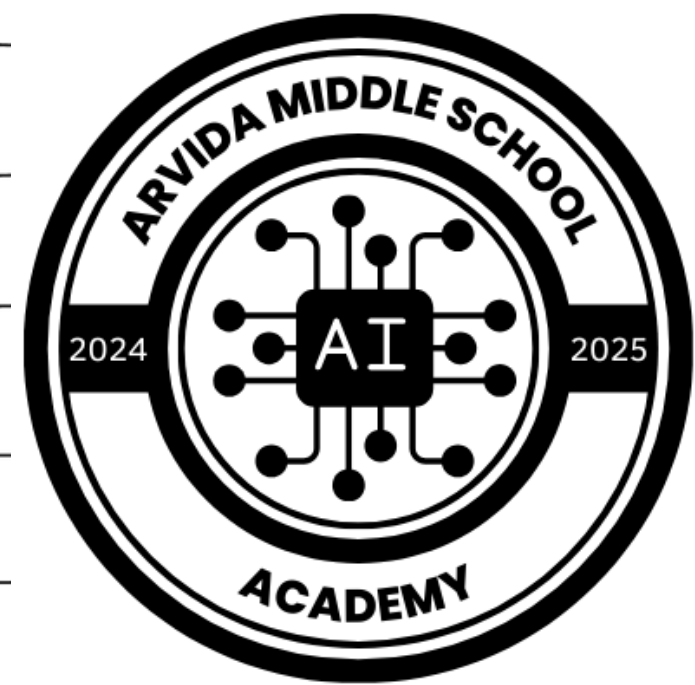

The Arvida Middle School Performing Arts Band Magnet is dedicated to nurturing young musicians and well-rounded individuals. Our program focuses on Woodwind, Brass, and Percussion instruments.

Forensic Science Magnet

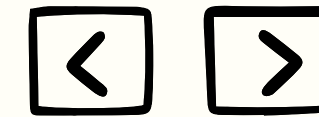

The Forensics Science Magnet is a program that implements scientific research to formulate solutions to real world social challenges using technology to make the world a safer place.

- *Local Farms*

- *Urban Sustainable Gardening*
- *Healthy living*
- *School Farm*
- *Scientific Research*

Band Magnet

Beyond musical excellence, students will develop essential character traits such as hard work, teamwork, and responsibility, preparing them for success both on and off the stage. Join us at Arvida, where musical achievement and character building prepare you for a bright future!

Band Magnet Audition: Experience on an instrument is NOT required.
Auditions will consist of the following:

- 1) Performance of a prepared selection– Students are to perform a piece of their choosing either on an instrument (woodwind, brass, percussion, piano, guitar, recorder) or vocally. Students must bring their own instrument, with the exception of piano and percussion instruments.
- 2) Aural pitch matching– Involves reproducing a musical pitch accurately. Students will hear a pitch and try to sing it back accurately.
- 3) Interview– Students will participate in a brief interview to gauge their interest level.

Our program focuses on Woodwind, Brass, and Percussion instruments, offering students a variety of performance opportunities both within our school and throughout the community, including exciting trips to local, state, and national competitions.

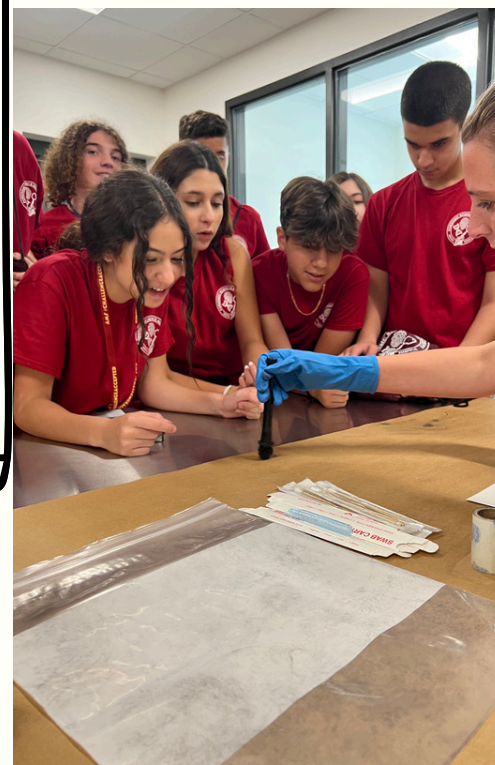

Forensic Magnet

The vision of Arvida Middle School's Forensic Research Magnet Program is to transform students into innovative leaders with the ability to propose solutions by learning about scientific research under the mentorship of local enforcement agencies.

Field Trips

- *State Attorney's Office*
- *Mystery Dinner Train*
- *Coral Gables Museum*
- *Ghost Tour*
- *Sea world, Hollywood Studios*
- *Law Enforcement High School*
- *Police Department*
- *Fire Fighter Stations, and more.*
- *Case studies, fun labs and interactive lessons*
